

Name:

Hour:

What is in a Line?

1. Select one activity you enjoy watching or participating in that involves movement such as playing a sport, dancing, climbing a tree, biking, jumping rope, etc. Do your best to keep this secret, we will be trying to guess your activity when the project is complete.

Write the name of the activity here

2. Create a list of 10 adjectives that describe both the activity and feelings you have while doing or viewing this activity. Write the adjectives in the table below row titled "adjectives" (if you need suggestions with adjectives visit the art with Nelson webpage)

3. Under the row titled "visual representation" you will create a line/lines that are intended to visually represent your chosen adjective. You can use marker, color pencil, or oil pastel. Be intentional! Really try to represent that adjective through width, color, direction, length, ect.)

4. Under the row titled "Explain Why" you will write a brief description explaining your intentions behind you line/lines. (think of why you choose the width, color, direction, medium ect.)

	ADJECTIVE	VISUAL REPRESENTATION	EXPLAINE WHY
	RESPONSIVE		I chose to do smooth curvy lines in brown because I have to respond to the trail when I am riding my mt. bike
